

100% recycled materials

### Materials

- Solid planks made of recycled plastic (PE), coloured throughout (green and beige)
- Stainless steel screws (8 mm)
- Galvanized reinforcement profiles

### Mounting

The podium is delivered fully assembled. Suitable for placement on a flat surface and movable with a transpallet. No anchorage required.

### No Safety zone required

A safety zone is not required. As the Podium is not considered as being a play equipment, a safety zone is not required. The Podium can be placed close to a wall.

### No need for safety surfacing

A shock absorbing safety surface is not required as the fall height is less than 60 cm. Also, this product is not considered as being a play equipment.
