

The playhouse can easily be transported and installed by means of a pallet truck.

Latest version is located at [www.govaplast.com](http://www.govaplast.com)

This item is TÜV certified.

+/- 222kg

## Mounting

The play hut is delivered fully assembled and requires no extra mounting.

## Material

- Solid boards made of recycled plastics (PE) coloured throughout (beige, green, brown)
- Stainless steel screws and nail plugs
- Virgin PE material

## Maintenance

The play hut contains no moving parts. The plastic material requires very little maintenance, that is cleaning with soapy water and a sponge or soft brush and rinsing with water to remove dirt and soap. As the materials' water absorption is less than 0.29%, it will not get stained by oil, grease or other products. Moss and algae will not adhere easily and can easily be removed. Cleaning with high-pressure (max. 100 bar) is possible but not recommended and mostly even not necessary. Spray with a fan-shaped jet with minimum 30 cm distance from the surface. Painting or staining is useless as the material does not need extra protection and moreover the paint will not stick to the plastic.

## Inspection Requirements

### Visual inspection:

Weekly or monthly, depending on the intensity of use.

### Functional inspection:

Monthly or four-monthly, depending on the intensity of use.

### Detailed inspection:

Yearly

### **Special attention during functional or detailed inspection:**

- Check all parts are tight.
- Check worn, loose, damaged, missing parts.
- Check screws sticking out.
- Check anchoring on hard soil.
- Vandalism?

Use original Govaplast parts when repairing is required, to ensure the TÜV certificate remains valid.

## Installation

The installation needs to be done on a hard and even surface. The equipment cannot be installed on a loose surface such as a sandpit, wood chips, bark mulch), unless a special bearing construction is installed (not standard).

## Security Zone

An obstacle-free area of minimum 150 cm around the equipment is required.

## No fall absorption surface required

The equipment's fall height is less than 60 cm. Therefore it's allowed to install it on a hard surface.

## Anchoring or not?

According to the European standard, playground equipment needs to be anchored. Anchoring of this specific equipment is not required if installed on a school playground with supervision. In case the playground is only used by the school itself, the security risk due to not anchoring the equipment is relatively small. If there is no anchoring we definitely advise to mark the equipment's position on the playground in order to be able to place it back correctly after temporary relocation, respecting the required 150 cm obstacle-free area.

### In case of anchoring:

- Determine the exact position of the play hut and mark it on the hard surface, respecting the required security zone.
- Draw the outline of the play hut with chalk on the surface.
- Secure the 4 plastic blocks supplied, on the surface in a way that the play hut just fits over these blocks. Each block has 2 pre-drilled holes for 2 nail plugs supplied.
- Place the play hut over the blocks.
- Pre-drill the holes (4 mm drill bit) in order to secure the play hut to the blocks with the stainless screws supplied.

## Important advice

To drill the holes use a sharp drill and first put the plastic part of the plug in the hole. Then screw the metal nail into the plug instead of hammering it. This way, you avoid damaging the head of the nail and unfixing will be easy.

**TYPE GOEDKEURING CERTIFICAAT**

**Toepassingen en beperkingen - Applications and limitations**

Dit attest heeft enkel betrekking tot het geïnspecteerde speeltoestel. Het rapport met nummer P-B-19-01-720302559-01-01rev2 bevat alle opmerkingen over dit speeltoestel.

Dit certificaat respecteert de richtlijnen en maatregelen die zijn opgenomen in het logboek van de fabrikant.

Wij houden eraan de uitbaters er attent op te maken dat zij op gepaste tijdstippen inspecties en onderhoud moeten uitvoeren en dit te documenteren, teneinde de toestellen en hun omgevingen in een goede staat te behouden.

Alle referenties naar documenten van het speeltoestel GP43 werden gecontroleerd.

Alle aanpassingen aan het geïnspecteerde speeltoestel, aan zijn samenstelling en de manier van samenstellen moeten voorgelegd worden aan TÜV SÜD Benelux en kunnen leiden tot een aanpassing van het certificaat.

Het is de taak van de fabrikant en/of de leveranciers om ervoor te zorgen dat alle gefabriceerde speeltoestellen van hetzelfde type als beschreven in dit certificaat conform zijn aan het model waarop dit certificaat gebaseerd is.

This certificate applies only to the inspected playground equipment. The report with number P-B-19-01-720302559-01-01rev2 contains all the comments about this playground equipment.

This certificate respects the guidelines and measures included in the logbook from the manufacturer.

We coming to make the managers alert that they need to perform inspections and maintenance at appropriate times and document this in order the devices and their environments in a good state.

All references to documents of the playground equipment GP43 were checked.

All modifications to the inspected playground equipment, to its composition and the way of composing should be submitted to TÜV SÜD Benelux and can lead to an adjustment of the certificate.

It is the responsibility of the manufacturer and/or the suppliers to ensure that all manufactured playground equipment of the same type as described in this certificate comply with the model on which this certificate is based.
