

Fill with 15cm sand.  
Volume of Sand:  $102 \times 77.5 \times 15 \text{ cm} = 0.119 \text{ m}^3$

! **Do not use parasols in case of strong winds.**

All models are supplied with mesh.  
\*GP36B3 cannot be supplied with parasol holder

## Mounting

The equipment is delivered fully assembled and requires no extra mounting.

## Material

- Solid boards and posts made of recycled plastics (PE) coloured throughout
- Stainless steel screws and nail plugs
- Virgin plastic sheets (PE)

## Maintenance

The sandpit contains no moving parts. The plastic material requires very little maintenance, that is cleaning with soapy water and a sponge or soft brush and rinsing with water to remove dirt and soap. As the materials' water absorption is less than 0.29%, it will not get stained by oil, grease or other products. Moss and algae will not adhere easily and can easily be removed. Cleaning with high-pressure (max. 100 bar) is possible but not recommended and mostly even not necessary. Spray with a fan-shaped jet with minimum 30 cm distance from the surface. Painting or staining is useless as the material does not need extra protection and moreover the paint will not stick to the plastic.

## Inspection Requirements

### Visual inspection:

Weekly or monthly, depending on the intensity of use.

### Functional:

Monthly or four-monthly, depending on the intensity of use.

### Detailed inspection:

Yearly

### **Special attention during functional or detailed inspection:**

- Check all parts and cover caps are tight.
- Check worn, loose, damaged, missing parts.
- Check screws sticking out.
- Check anchoring.
- Vandalism?

Use original Govaplast parts when repairing is required, to ensure the TÜV certificate remains valid.

## Security Zone

An obstacle-free area of minimum 150 cm around the equipment is required. The security zones of several of these items may overlap.

## Use

It is not intended that the children stand on/in the sandpit. These sandpits are designed for use in schools and/or nurseries where supervision is guaranteed. We recommend to cover the sandpit after use with the mesh supplied, in order to avoid e.g. cats and leaves in the sandpit, but still enabling UV light and rain to pass through cleaning the sand. As the sand needs to 'breath' we advise not to cover the sandpit with a sheet or plate for hygienic reasons.

## No fall absorption surface required

It is not intended that the children stand on/in the sandpit. The equipment's fall height is less than 60 cm. Therefore it's allowed to install it on a hard surface.

## Installation

The equipment is delivered fully assembled. The installation needs to be done on a hard and even surface. The equipment cannot be installed on a loose surface such as a sandpit, wood chips, bark mulch), unless a special bearing construction is installed (not standard).

Only for use with standard sized parasols with round pole, diameter 45 to 48 mm. Parasol poles with smaller diameter can pose a risk of finger entrapment.

*Guarantee not valid on mesh and rope supplied.*

Verplaatsbare zandbak is een zandbak op hoogte  
Movable sandpit is a movable sandbox at height

Typenummer - Type indication: GP36-X

Movable sandpit is available in 3 versions:

GP36-B3: 1270 x 920 x 450 mm  
GP36-B4: 1270 x 920 x 600 mm  
GP36-B5: 1230 x 920 x 750 mm

Afmetingen (l x b x h) - Dimensions (l x w x h): variable

**Toepassingen en beperkingen - Applications and limitations**

Dit attest heeft enkel betrekking tot het geïnspecteerde speeltoestel. Het rapport met nummer P-B-19-01-720302559-01-01rev1 bevat alle opmerkingen over dit speeltoestel.

Dit certificaat respecteert de richtlijnen en maatregelen die zijn opgenomen in het logboek van de fabrikant.

Wij houden eraan de uitbaters er attent op te maken dat zij op gepaste tijdstippen inspecties en onderhoud moeten uitvoeren en dit te documenteren, teneinde de toestellen en hun omgevingen in een goede staat te behouden.

Alle referenties naar documenten van het speeltoestel GP36 werden gecontroleerd.

Alle aanpassingen aan het geïnspecteerde speeltoestel, aan zijn samenstelling en de manier van samenstellen moeten voorgelegd worden aan TÜV SÜD Benelux en kunnen leiden tot een aanpassing van het certificaat.

Het is de taak van de fabrikant en/of de leveranciers om ervoor te zorgen dat alle gefabriceerde speeltoestellen van hetzelfde type als beschreven in dit certificaat conform zijn aan het model waarop dit certificaat gebaseerd is.

This certificate applies only to the inspected playground equipment. The report with number P-B-19-01-720302559-01-01rev2 contains all the comments about this playground equipment.

This certificate respects the guidelines and measures included in the logbook from the manufacturer.

We coming to make the managers alert that they need to perform inspections and maintenance at appropriate times and document this in order the devices and their environments in a good state.

All references to documents of the playground equipment GP36 were checked.

All modifications to the inspected playground equipment, to its composition and the way of composing should be submitted to TÜV SÜD Benelux and can lead to an adjustment of the certificate.
