

This item is TÜV certified.

## Mounting

The equipment is delivered fully assembled and requires no extra mounting. Anchoring in the ground is required.

## Materiaalgebruik

- Solid boards made of recycled plastics (PE) coloured throughout (beige, green, brown)
- Stainless steel screws and nail plugs
- Virgin sheet material (PE)
- 2 replaceable helms (helms)

## Maintenance

The plastic material requires very little maintenance, that is cleaning with soapy water and a sponge or soft brush and rinsing with water to remove dirt and soap. As the materials' water absorption is less than 0.29%, it will not get stained by oil, grease or other products. Moss and algae will not adhere easily and can easily be removed. Cleaning with high-pressure (max. 100 bar) is possible but not recommended and mostly even not necessary. Spray with a fan-shaped jet with minimum 30 cm distance from the surface. Painting or staining is useless as the material does not need extra protection and moreover the paint will not stick to the plastic.

## Inspection Requirements

### Visual inspection:

Weekly or monthly, depending on the intensity of use.

### Functional inspection:

Monthly or four-monthly, depending on the intensity of use.

### Detailed inspection:

Yearly

### **Special attention during functional or detailed inspection:**

- Check all parts are tight.
- Check worn, loose, damaged, missing parts.
- Check screws sticking out.
- Check anchoring on hard soil.
- Helms must be tightly secured.
- Vandalism?
- is there play on the helms?

Use original Govaplast parts when repairing is required, to ensure the TÜV certificate remains valid.

## Security Zone

An obstacle-free area of minimum 150 cm around the equipment is required. The security zones of several of these items may overlap.

## No fall absorption surface required

The equipment's fall height is less than 60 cm and can be anchored in hard ground. See below for instructions on anchoring in loose ground (sandpit, wood chips, bark mulch etc.)

## Anchoring is required

Anchoring is done as illustrated with conical foundation of stabilized sand. The level mark on the post indicates the ground level.

## Replacement helms

Through intensive use, the plastic mechanism in the helms is subject to wear. The wearing of the helm and the other plastic parts, causes play on the system involving necessary replacement after a few years.

The helm can't come loose from the green plastic mounting plate, as the cap nut is permanently glued onto the metal shaft. Replacing the whole system is not difficult though, as the green plastic mounting plate together with the helm can be unscrewed from the post and a new steering system can be screwed.

**Toepassingen en beperkingen - Applications and limitations**

Dit attest heeft enkel betrekking tot het geïnspecteerde speeltoestel. Het rapport met nummer P-B-19-01-720302559-01-01rev2 bevat alle opmerkingen over dit speeltoestel.

Dit certificaat respecteert de richtlijnen en maatregelen die zijn opgenomen in het logboek van de fabrikant.

Wij houden eraan de uitbaters er attent op te maken dat zij op gepaste tijdstippen inspecties en onderhoud moeten uitvoeren en dit te documenteren, teneinde de toestellen en hun omgevingen in een goede staat te behouden.

Alle referenties naar documenten van het speeltoestel GP45 werden gecontroleerd.

Alle aanpassingen aan het geïnspecteerde speeltoestel, aan zijn samenstelling en de manier van samenstellen moeten voorgelegd worden aan TÜV SÜD Benelux en kunnen leiden tot een aanpassing van het certificaat.

Het is de taak van de fabrikant en/of de leveranciers om ervoor te zorgen dat alle gefabriceerde speeltoestellen van hetzelfde type als beschreven in dit certificaat conform zijn aan het model waarop dit certificaat gebaseerd is.

This certificate applies only to the inspected playground equipment. The report with number P-B-19-01-720302559-01-01rev2 contains all the comments about this playground equipment.

This certificate respects the guidelines and measures included in the logbook from the manufacturer.

We coming to make the managers alert that they need to perform inspections and maintenance at appropriate times and document this in order the devices and their environments in a good state.

All references to documents of the playground equipment GP45 were checked.

All modifications to the inspected playground equipment, to its composition and the way of composing should be submitted to TÜV SÜD Benelux and can lead to an adjustment of the certificate.

It is the responsibility of the manufacturer and/or the suppliers to ensure that all manufactured playground equipment of the same type as described in this certificate comply with the model on which this certificate is based.
